

Amplifier Feed Matrices 4 x 4 Hybrid

Applications

- Power Amplifiers
- Sectorize Base Station Transmissions
- Beam Forming
- Wireless Infrastructure
- GSM and AMPS Frequencies

Features

- Commercial Grade
- Low Cost
- Lightweight
- 100% Tested
- Flush Mounting

Electrical Specifications

Type	Frequency GHz	Isolation dB Min	Insertion Loss dB Max
Hybrid	0.75 - 0.96	20	0.50
VSWR Max : 1	Amp. Bal. dB Peak	Phase Bal. Degrees Peak	Connectors
1.25	±0.50	±0.30	SMA

Notes: Impedance: 50 ohms nominal. Meets MIL-E-5400 Class 3 requirements. Additional screening available for military and space applications.

Electrical and Mechanical Specifications subject to change without notice.
